FIRE SAFETY CHECKLIST FOR YOUR WORKPLACE
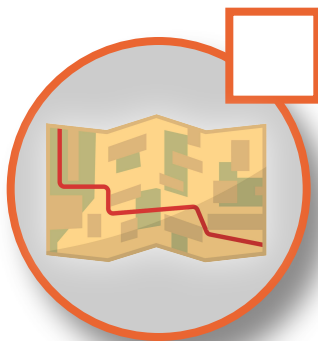

1 Does your building have clearly marked exit and emergency signs?

2 Is fire safety equipment available throughout your entire property?

3 Do you have fully working and regularly tested smoke alarms?

4 Are your escape routes clearly posted for your employees?

5 Do your employees know how to properly use a fire extinguisher?

6 Has everyone in your building been considered in your escape plan?

7 Do you have a safe and dedicated area for smoking?

8 Have your extinguishers been inspected on a regular basis?

9 Does your electric-operated machinery and systems have proper fire protection?
